## Chain detail

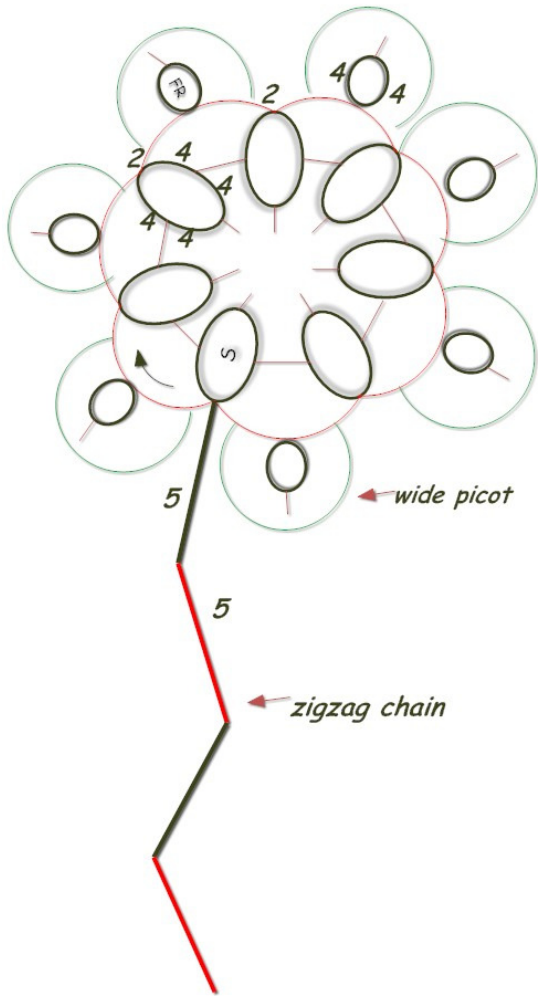

Begin the chain, with 2 double stitches, then a long picot, aprox 2 inches horizontal. Then you have to make the dan rusch wide picot as follows..

## Join long picot (jlp)

With the crochet hook, from back to front, pull the working thread through the long picot, forming a loop. Now you have to tat the 1<sup>st</sup> half stitch over this loop (replace the working thread with this new loop in your hand) . Then put the working thread in your hand again and tat the 2<sup>nd</sup> half stich. Repeat this sequence for the desired picot width.
