

“Runder stern” ----”Round Star” figure 57

With my limited German translator and looking carefully at the picture this is what I came up with...

Round 1: (R: 6-3-6, C: 12) 6 times and join the last chain to the beginning of the first ring

Round 2: C: 4-4-4-4+ (join to the top of each ring from 1<sup>st</sup> round)  
Cut and Tie.

Round 3: R: 8+8 (join to first picot of chain below, alternating from 1<sup>st</sup> then 3<sup>rd</sup> picot of each chain of the last round)  
C: 6-6 continue until you have 12 rings and 12 chains joining the last chain to the first ring

Round 4: C: 7+ (join to the picot of chain of last round), R: 4-4-4-4, chain 7 and join to the top of the ring below, repeat 11 more times.
