Materials: 2 shuttles

vsp = very small picot TOR = floating ring , throw off ring SS = switch shuttles

Instructions: Round 1: (1 shuttle); R: 5 ± 5 - 5 - 5 - 5.

Repeat until 6 petals are made. Remember to join the last petal with the first one. Cut.

Round 2:

R: 3 - 5 - 3 (vsp) 3 - 3.

CH: 5 - 5 + (to 1st picot of petal) 5 + (to 2nd picot of petal) 5 - 5.

Join to vsp. SS.

CH: 8.

(Floating Ring using SH2) TOR: 8 - 8.

CH: 5.

TOR: 8 - 8.

CH: 8. SS.

Repeat from beginning around. Cut.

Round 3:

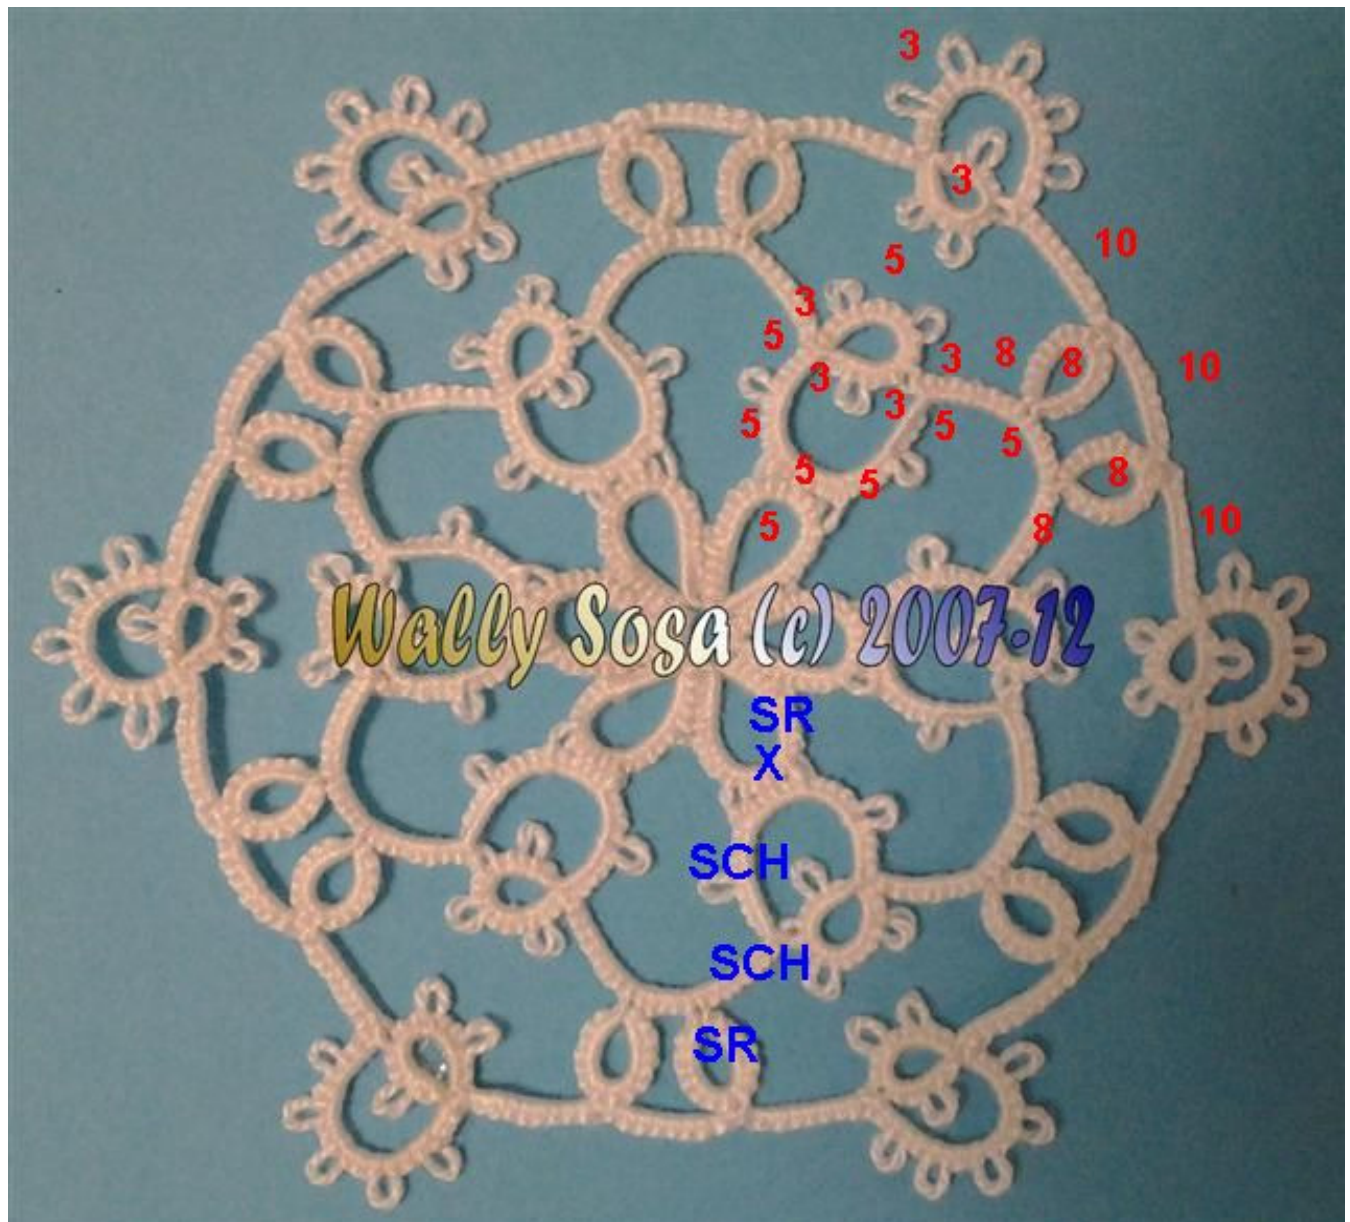

R: 3 - 3 - 3 (vsp) 3 - 3.

CH: 3 (- 3) x 5. Join to vsp.

CH: 10 + (to 1st 8's ring) 10 + (to 2nd 8's ring) 10.

Repeat from beginning around. Cut.

This pattern may be worked in one pass without cutting the thread. The 6th petal of row 1 would be a split ring (marked SR on the photo) followed by a mock picot (marked X.) Continue with the chain and ring repeat around to where the last small ring is thrown off (TOR.) Do not throw off the ring yet. Make the long section of split chain, join to the small ring's vsp, continue split chain back to the TOR. TOR becomes a split ring climbing into the last row. Add helping loops to the last split ring to aid in hiding the tails later.
