

Tea Light Inspired Earrings _ (used #30 thread) Barbara

Put jump ring on left shuttle. Wind CTM about 2 yds on each shuttle.

****Video showing how to put a bead in the center of a ring using a SCMR. Terrific !! <http://www.youtube.com/watch?v=EdAiMBmhPXk>**

SCMR: (use enough ds to go half way around bead being used)
CH 9, slip bead onto loop on the bottom. Place a paperclip on left hand side in front of the bead. Slip shuttle through the loop and close the SCMR.

Place jump ring from the left shuttle in place.
CH 9 then join to space left by the paperclip.
