

Two single shuttles, one white & one black
6 Seed beads

Procedure: Start with LR. Before starting SmR, leave a little bare thread, just enough to make a loop at end. Eventually after closing LR's round face work, I pass thread that I had left before longer through Centre & finger tat the last link also closing SmR's & being careful to maintain the connection between R's.
Work a round Ch's over centre & sew on beads
