

Nicola Burt's Earrings Based on Jonyusoff's Bookmark

Nikki says that it was made in size 20 Lizbeth color Black. With Gold seed beads. Beads are on the shuttles and added on to picots in some areas. As you go along you can see where to add them.

This is based on Jonyusoff's Fold over Bookmark. It is used with the permission of the designer.

<http://tatsaway.blogspot.com/2010/05/folded-bookmark.html>

This is the pattern for the bookmark.

The bookmark is folded together and placed to hang on the top edge of the book on the page where you stopped. It will not get lost in the book because you can see a splinter of it from the top. There will be no overhanging tail, tassels or ribbons when you place the book on the shelf. Neat, huh?

The thread used for the model is Lizbeth 115 - Springtime, size 20. The full length of the finished bookmark is about 15cm and 4.5cm at the widest part.

Nikki Burt earrings based on bookmark by Jonyusoff

Part 1 (shown in yellow in the original chart)
Two shuttles

Begin at the ring shown,
R(5-5), reverse work (rw).
C(6-4-4-8), rw.
