

Simple Dragonfly Earrings Wanda Salmans 2014

R = ring Ch = chain
 - = picot -- longer picot
 + = join SS = switch shuttles
 Sht1 = shuttle 1 Sht2 = shuttle 2
 RW = reverse work

This was made with 2 shuttles but could be done with one shuttle and a ball.
 Bead is on Sht1 thread

For each earring you will need a split ring, a bead of choice and an earring hook.

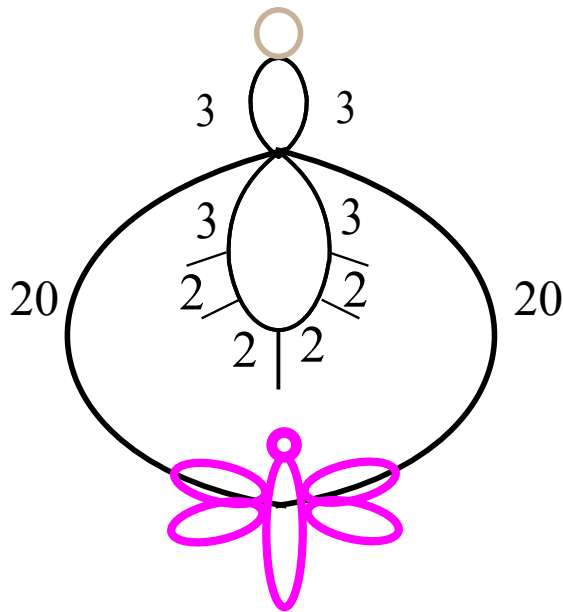

Sht1 R 3++3 to split ring. (join to split ring twice)
 RW SS

Sht2 R 3-2-2--2-2-3 RW SS

Sht1 Ch 20 B* 20

Join to base of rings.

* for shaped beads make sure it is right-side-up for the way it is to be worn and ball thread is on the backside of the bead.

The Online Tatting Class/Georgia Seitz has my permission to use this pattern for class
