Brussels Square

Skill Level: Intermediate

Supplies: Pink size 30 thread
                2 shuttles – continuous thread will work

Symbols used:

SR = Split Ring	a dash = picot
Ch = Chain	+ = connecting picot
S1 = Shuttle 1	RW = reverse work
S2 = Shuttle 2	lj = lock join

Pattern: This pattern requires the basic knowledge of split rings and chains

Note: Make all connecting picots small. The picots on the chains should be a bit bigger. They will be used to connect the squares together, but do not connect them yourself. The goal is to have the finished project 3 cm by 3 cm for a project at the World Lace Project in Brussels later in 2018.

SR   S1 -5-5   S2 5-5 close
SR   S1 5-5   S2 5-5 close
SR   S1 5-5-5   S2 5 close RW

SR   S2 5   S1 5-5-5 close
SR   S2 5+ (to S2 picot of second split ring) 5   S1 5-5 close
SR   S2 5+ (to S2 picot of first split ring) 5-5   S1 5 close RW

SR   S1 5   S2 5-5-5 close
SR   S1 5+ (to S2 picot of second ring prev row) 5   S2 5-5 close
SR   S1 5+ (to S2 picot of third ring prev row) 5   S2 5-5 close

Ch 5-5 (this should be a corner), lj to closest picot on next side
Ch 10, lj to closest picot
Ch 10, lj to closest picot
Ch 5-5 (this should be the next corner), lj to closest picot on next side
Repeat chains until you have gone around your square. Tie off.

The picture on the left is to show you the action of the two shuttles, starting in the lower left corner. S1 is the dark color and S2 is the light color. The picture on the right should be your finished piece in one color.
