

Emmy Leibert fig. 37 bk 1 pg 2 - reprint pg 18

Using size 20 thread the motif measures approximately 4 ¼ inches (118 mm) in diameter.

Work the centre ring, climb out with a mock picot then a split ring and alternating rings and chains to the last chain which is a split chain which leads on to the centre ring (worked as a split ring) of the clover leaf of the next row.

Work the side rings of the clover as split rings all around; the last split ring is $\frac{3}{4}$ split to climb out into a large ring on the outer row.

The large rings on the outer row join to a cloverleaf and are joined in pairs to another large ring. The chains between large rings that are joined in pairs are shorter than the chains between the sets of rings.

Centre ring: 9 p separated by 2 ds climb out with a mock picot.

Split ring: 6 / 6

Chain: 4 – 2 – 4; split chain: 4 – 2 / 4

Mock picot to climb out then large cloverleaf ring is a split ring: 6 – 5 / 1 + 6 – 5 RW

SH2 5 + 5 – 5 – 5 RW

Split ring: 5 + 5 / 5 – 5; repeat once.

Clover leaf large ring; 5 + 6 + 1 + 6 – 5, split ring; 5 + 5 / 5 – 5; repeat once.

Continue all around, then last split ring: 5 + 5 + (to ring at the start of the row) 5 / 5

Climb out with a mock picot.

Split ring: 12 / 6 – 6

Chain: 7 picots separated by 3 ds

*Ring: 12 + 6 - 6

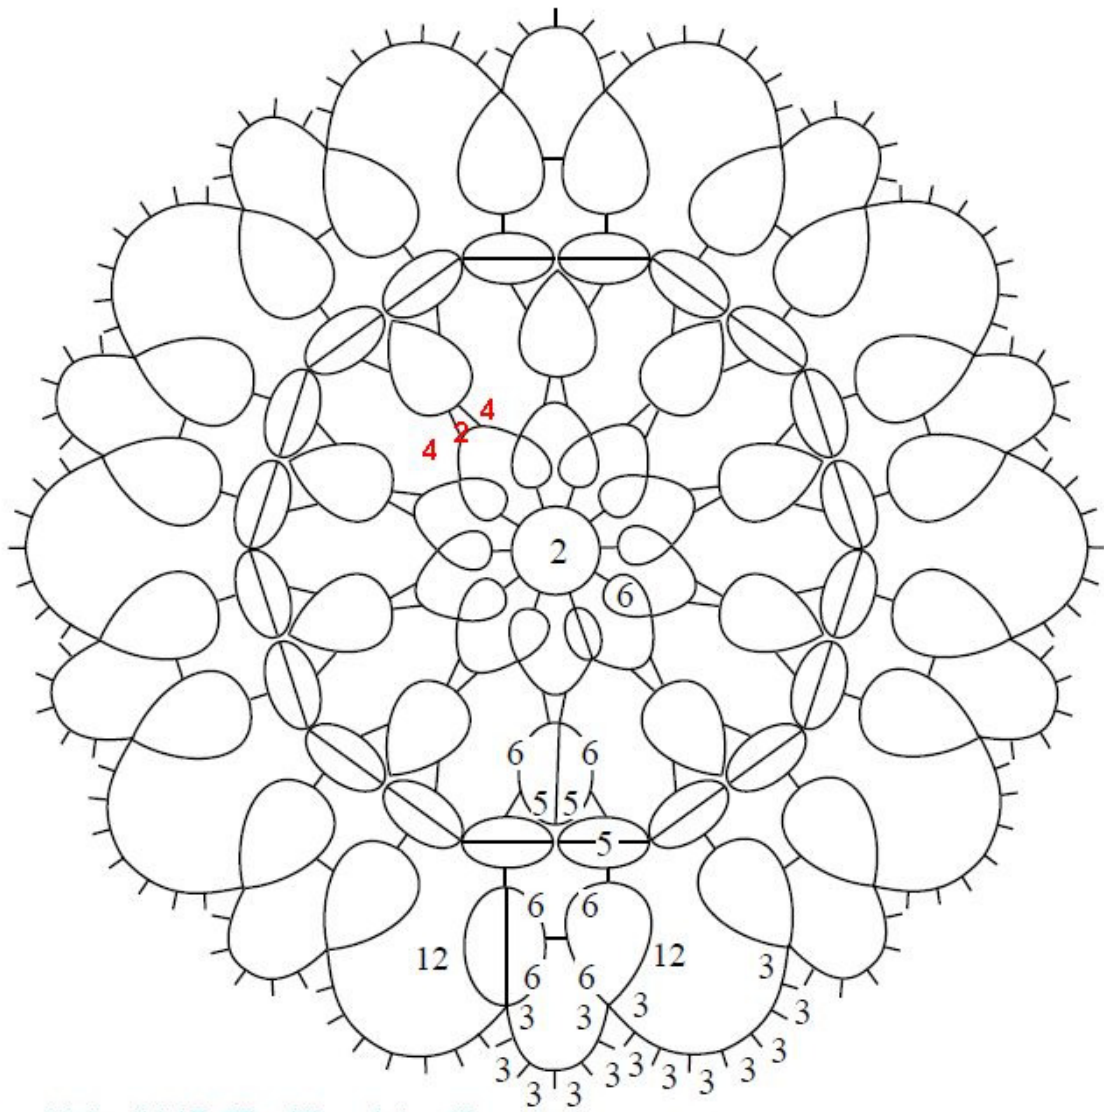

Chain: 5 picots separated by 3 ds

Ring: 6 + 6 + 12

Chain: 7 picots separated by 3 ds

Repeat from * around.

Model, diagram and pattern rewrite by Jennifer Williams.
