THE "NEW BABY" TATTING

First Stitch—Wind thread around 4 fingers of left hand, holding it between forefinger and thumb. Place shuttle in right hand with thread on inside of hand and raise thread with 3rd finger. Pass shuttle under thread of left hand and draw it over same thread, but under thread which is extended by 3rd finger of right hand. Immediately the shuttle is drawn through release thread from right 3rd finger and let left 2nd finger drop, drawing thread tight with right hand, making the slipknot with thread on left hand. Shuttle thread should always slip.

Second Stitch—Left hand in the same position as for first stitch. Place shuttle on top of left hand, drawing it under thread on left hand through the loop from shuttle. Drop 2nd finger on left hand and pull thread tight with right hand, making slipknot with thread on left hand.

Two Shuttles—Tie knot in end of thread on shuttle. Wind 2nd shuttle thread around little finger of left hand twice, drawing it under 3rd finger and over 2nd finger, holding it with forefinger and thumb. Place end of first shuttle thread also between forefinger and thumb and proceed as with one shuttle.
